Summary

Software Engineer with 3+ years of experience building scalable, enterprise-grade applications for government-level projects. Strong experience in **React.js**, **Next.js**, and **Python (Flask)**, with a certified foundation in Java and DevOps (**Docker**). Proven ability to optimize UI performance, design reliable backend systems, and manage **PostgreSQL** databases. Open to immediate relocation and experienced in working within fast-paced, cross-functional teams.

Skills

Programming Languages: **TypeScript**, **JavaScript**, **Python**, **Java**

Frontend Technologies: **React.js**, **Next.js**, **Vue.js**, **Angular**, **Tailwind CSS**, **Bootstrap**

Backend Technologies: **Node.js**, **Express.js**, **Flask**, **Mongoose**

Databases: **PostgreSQL**, **MongoDB**

Tools & Platforms: **Git**, **Postman**, **RESTful APIs**

Experience

Goa Electronics Limited (GEL) Software Engineer

08/2023 – 12/2025
Panjim Goa

- Architected and programmed a suite of RESTful APIs using Node.js, Express.js, and Flask, establishing robust data models and migrations to support new application functionalities.
- Analyzed and streamlined existing API endpoints and database queries using authored and debugged full-stack web applications, contributing to both the frontend and backend using React and Node.js.
- Rectified **1000+ critical bugs** by analyzing system logs and collaborating with teammates in multiple projects, improving application stability by 60%. Collaborated with the development team to deploy new components and functionality for a web application.

ZunderDog LLP Software Developer Intern

02/2023 – 06/2023
Margao Goa

- Executed data-driven social media campaigns that grew the company's follower base by 20% and increased organic reach on LinkedIn/Instagram.
- Produced high-performing visual content (static posts, reels, and banners) that aligned with the startup's brand voice and marketing goals.
- Created a cohesive Design System, including typography, color palettes, and component libraries, to maintain brand integrity across all digital touchpoints. Conducted user research and usability testing to identify pain points, implementing design solutions that improved task completion rates by 40%.

Personal Projects

Small Caps

Node.js, TypeScript, Express, PostgreSQL, React.js

- Designed and developed a full-stack web platform enabling users to discover nearby skilled workers (electricians, plumbers, laborers) using location-based services.
- Developed responsive and reusable UI components using React.js, improving user experience and application usability.

ThenuMenu

Node.js, TypeScript, Express, PostgreSQL, React.js

- Built the full application structure and implemented a dynamic menu creation system. Improved user workflow for digital menu generation.
- Built RESTful APIs using Node.js, TypeScript, and Express.js to manage menu structures, categories, items, and role-based visibility.

Education

VVM's Shree Damodar College Of Commerce And Economics (Goa University)

2023

Bachelor of Computer Applications (BCA) (Equiv. to B.S. in Computer Science)

Margao, Goa

Graduated with CGPA of 8.7 which is 79.2% aggregate

Certifications

JAVA

POSTGRESQL

REACT.JS

DEVOPS (In Progress)

Languages

ENGLISH (Fluent)

HINDI (Fluent)

KONKANI (Native)
